

High Security Premises Information Box

Part No. **HSS-PIB-C**

Overview

- Designed for use in areas where security is paramount such as high rise residential buildings.
- Provides fast access for the Fire & Rescue Services to building plans, emergency response packs and other information.
- Third party certified by Certisecure.
- Tested to STS 205 BR2.
- Serves as a recognised focal point for firefighters to access emergency documentation in line with FIA/NFCC Guidance.
- Robust galvanised steel design - weather protected and resistant to corrosion.
- Internally positioned hinges guard against vandalism.
- High security locking system allows building owners to access the box through their own bespoke keys and firefighters to access it via their "GSP One Key® System" - our sales team will contact you about your key requirements on order placement.
- Measures 570mm H x 495mm W x 122mm D (including handle). Weight = 25kg

Technical Specifications

Product dimensions (mm) 570mm H x 495mm W x 122mm D (including handle).
